Hello Peter,

I will be handling this from now on and would be happy to respond to your request for nexus information. First of all we received the certified mail green cards back for the four 104e letters on January 28, 2014. Therefore I will approve an extension of 30 days from that date. The responses are now due back on March 28, 2014. Should you need additional time as it gets closer to that date then we can re-evaluate it at that time.

Secondly I will put in a request today to our field personnel to get the pictures and field screening analysis information for the containers with the labels on them for PPG Industries (10 non hazardous containers), Devoe Paint (2 non hazardous containers) and Olympic Interior Latex (1 non hazardous container). I will get those out to you as soon as possible.

The nexus for PRC/Desoto is a customer list dated November 2, 2000 and a Transaction Detail by Account dated January through December 1998. These were both found on the Site when we were reviewing old records that were left there. PRC/Desoto International appears on both lists and I have attached them for your review.

These are the only documents that EPA has to connect PPG and its' related entities to the Site. Should you have any additional questions feel free to contact me.

Thank You,
Bonnie Hriczko, Enforcement Specialist
US EPA, Region II
Removal Action Branch
Edison, NJ 08837

Thanks, Peter, but the letter is not attached, or I didn't get it. I've copied Bonnie on this reply so you'll have her email address—please when you forward the letter also copy her. As I understand it, you are seeking nexus information and an extension, and as I suggested earlier, you should contact Bonnie—best by email. Nice talking to you. ---Bill

Bill:

It was a pleasure talking with you. Here is the letter I referenced. Please forward this to Bonnie Hriczko. Both of you will be receiving paper copies.

I have requested any relevant nexus documentation. Please feel free to forward the information to me electronically.

Regards,
Peter
